## EDUCATION

---

**3rd Year Information Science student,**  
*Addis Ababa University(AAU)*  
09/2023 – present | Addis Ababa, Ethiopia

As a third-year **Information Science student** at Addis Ababa University, I'm deeply curious about how technology can solve real-world challenges. My interest lies in building systems that are not only functional but also meaningful to the communities they serve. I take a consistent and self-motivated approach to learning, especially in areas like **algorithmic thinking** and **software design**. I enjoy breaking down complex problems and finding clear, efficient solutions. Beyond coding, I'm passionate about **working on projects** that have impact, value **collaboration**, and **encourage** continuous growth.

## SKILLS

---

**Front End Development:** React.js, next.js, Tailwindcss •

**Back End Development:** GoLang, Next.js, Nestjs, Node.js, Express.js, MongoDB, mysql, postgresql, Neon •

**AI Agent Developer:** Developed ai agent using Nodejs and react •

**Data Structure And Algorithms • Programming Languages:** Python, javascript, C++,  
Java, Typescript, C#, java

## PROJECTS

---

**Hr(Ai-Agent)** , A full stack AI agent that automates HR tasks

**E-commerce App** ,  
Full Stack app for supermarket websites

**Sccoter App** 

**Reminder App** 

## INTERESTS

---

**Reading Books And Problem solving** — In my free time, I enjoy reading books—especially those related to personal development, technology, and fiction—as a way to learn and unwind. I'm also passionate about problem-solving and regularly practice algorithmic challenges on platforms like LeetCode to sharpen my thinking. Exploring new tools and technologies excites me, and I'm always looking for ways to improve my coding skills. I also enjoy participating in coding challenges and engaging with tech communities to stay inspired and connected.
